As If It Matters:

Living Life As If Thinking Matters R. L. Wysong, 2000-09 Living Life as if Thinking Matters Why dissent is crucial to health happiness hope and a better world This is a book about living life better and solving its dilemmas by putting thinking ahead of popular beliefs We are all born on the starting line of life with blank mental slates Then each of us has our mind filled in by parents schools peers and experts The result is a society stuffed with given beliefs none of which we own and as you will learn in this book most of which are wrong Although important questions are often debated there seems to be no satisfying solutions Instead shortsighted agendas prevail money dictates decisions and ethics seems a thing of the past We all sense this misdirection and can feel helpless as the world spirals out of control Since ultimately everything in life happens because of the way we think solutions depend upon thinking too That does not mean playing the victim and relying on others but reaching within to see the sense goodness and direction that lie there Dr Wysong helps readers tap into their unlimited resources and take control All of life's important topics are discussed in this encyclopedic wise and helpful book including how to achieve optimal health think correctly about politics family love sex the environment economics government and social issues and how to self improve and cultivate conscience If you would like to understand life better be healthier happier have meaning contribute to a better world and avoid some bumps and bruises along the way this is your guidebook *The Only Poetry That Matters* Clint Burnham, 2012-05-15 A thought provoking history of the internationally renowned language poetry group the Kootenay School of Writing Teaching as if Life Matters Christopher Uhl, 2011-05-15 What would it be like to teach as if life matters To move beyond the typical regimen of classroom exercises homework and standardized tests and to guide students through life's most important lessons Dissatisfied with traditional educational models Christopher Uhl and Dana L Stuchul asked themselves these questions What they discovered will open the eyes of today's educators to a whole new way of teaching The authors promote an approach that fosters self knowledge creativity curiosity and an appreciation for our planet Central to their philosophy is the question of what we humans need in order to live meaningful lives The answer healthy relationships with ourselves each other and the world Teaching as if Life Matters is an open letter to teachers offering guidance and encouragement for nurturing students in ways that make teaching and learning meaningful In short it is a passionate plea for transformative teaching Informed by the alternative educational philosophies of John Dewey Maria Montessori Rudolf Steiner and Ivan Illich this book invites teachers and students to participate in a new culture of education This fascinating and urgently needed book will inspire today's educators to inspire their students Capitalism as If the World Matters Jonathon Porritt, 2012-04-27 In this politically charged analysis Porritt addresses the most pressing question of the 21st century can capitalism as the only real economic game in town be retooled to deliver a sustainable future *Teaching as If Learning Matters* Jennifer Meta Robinson, Valerie Dean O'Loughlin, Katherine Kearns, Laura Plummer, 2022-06-07 Teaching is an essential skill in becoming a faculty member in any institution of higher education Yet

how is that skill actually acquired by graduate students Teaching as if Learning Matters collects first person narratives from graduate students and new PhDs that explore how the skills required to teach at a college level are developed It examines the key issues that graduate students face as they learn to teach effectively when in fact they are still learning and being taught Featuring contributions from over thirty graduate students from a variety of disciplines at Indiana University Teaching as if Learning Matters allows these students to explore this topic from their own unique perspectives They reflect on the importance of teaching to them personally and professionally telling of both successes and struggles as they learn and embrace teaching for the first time in higher education
