As Sociology Do Brilliantly At S:

Perspectives on the American South Merle Black, John S. Reed, 1984 **One South** John Shelton Reed, 1982-05-01 If it can be said that there are many Souths wrote W J Cash in *The Mind of the South* the fact remains that there is also one South. In the informal engaging essays brought together in *One South* John Shelton Reed focuses on the South's strong regional identity and on the persistence well into the last decades of the twentieth century of Southern cultural distinctiveness. Reed argues that Southerners are similar in much the same way that members of an ethnic group are similar. He discusses the South's shared cultural values ranging from serious examinations of Southern violence and regional identity to considerations of Southern humor, country music and the emergence of a new Southern middle class epitomized by the family of former president Jimmy Carter. Reed opens his volume with three essays dealing with the discipline of sociology and its relation to the South. The first essay proposes ways that sociology can contribute to the mainstream of regional studies; the second traces the history of sociological attention to the South in our century and this suggests that the sociological way of thinking may be somewhat alien to well-bred Southerners. In the next section Reed looks at the question of group identity, arguing in one essay *The Heart of Dixie* that the South is best defined by locating Southerners rather than by isolating a particular geographic region. Reed then turns his attention to minority and fringe groups within the South, including in *Shalom* Y. All Southern Jews. A final section looks at some of the particular advantages and disadvantages of life in the New South today. Reed's explorations into the region's culture reveal that Southerners are identifiable as a group less by obvious background characteristics (education, occupation, rural or urban residence) than by shared attitudes toward family and community, religious beliefs and practices, and violence and the private use of force, the kind of things that customarily identify ethnic groups. In this way *One South* demonstrates how history and the heritage of Southernness have for now triumphed over the disintegrating forces of geography and economics.

Understanding Men And Health: Masculinities, Identity And Well-Being Robertson, Steve, 2007-09-01 Based on empirical research and data, this book provides an interdisciplinary exploration of the links between men's health, policy, gender and masculinity.

Race of Time Daniel Chaffee, Samuel Han, 2015-11-17 Charles Lemert is one of the most renowned critics of social theory and theorists today. The editors of this book have offered and contextualised many of his best essays and situated them against the backdrop of American sociology. The breadth of Lemert's work doesn't stop at an academic engagement with theoretical debates such as globalisation or postmodernism but cuts right to the heart of abiding social issues. His work is focused and continues to probe pressing questions such as the rise of vulnerabilities in an era of new capitalism. By weaving together personal narrative, research, lucid explanations and a dynamic engagement with social theory of old and new, his unique prose renders accessible complex theoretical debates.

Quarterly Review of the Methodist Episcopal Church, South, 1913 **Intersections of Contemporary Art, Anthropology and Art History in South Asia** Sasanka Perera, Dev Nath Pathak, 2019-02-23 Taking

South Asia as its focus this wide ranging collection probes the general reluctance of the cultural anthropology to engage with contemporary visual art and artists including painting sculpture performance art and installation Through case studies engaged equally in anthropology and visual studies contributors examine art and artistic production in India Sri Lanka Pakistan Bangladesh and Nepal to bring the social and political complexities of artistic practice to the fore Demonstrating the potential of the visual as a means to understand a society its values and its politics this volume ranges across discourses of anthropology sociology biography memory art history and contemporary practices of visual art Ultimately Intersections of Contemporary Art Anthropology and Art History in South Asia simultaneously expands and challenges the disciplinary foci of two fields it demonstrates to art criticism and art history the necessity of anthropological and sociological methodologies and theories while at the same time challenging the iconophobia of social sciences
