A Socialist Realist History? Kristina Jõekalda, Krista Kodres, Michaela Marek, 2019-06-17 How did the Eastern European and Soviet states write their respective histories of art and architecture during 1940s 1960s The articles address both the Stalinist period and the Khrushchev Thaw when the Marxist Leninist discourse on art history was invented and refined Although this discourse was inevitably Sovietized in a process dictated from Moscow a variety of distinct interpretations emerged from across the Soviet bloc in the light of local traditions cultural politics and decisions of individual authors Even if the new official discourse often left space open for national concerns it also gave rise to a countermovement in response to the aggressive ideologization of art and the preeminence assigned to Socialist Realist aesthetics

Acta Historiae Artium Balticae: 2, 2007-04-02 The second issue of the AHAB comes out under the title of Art and the Sacred Ritual and religious objects today classified as art were once not claimed as such Clearly artworks that were intended for religious services were not created on purely aesthetic grounds they were not intended to be art works per se Nevertheless academic practice and discourse has treated them primarily as art even though the word sacred is placed before the word art in these discourses In today's scholarship the proliferation of anthropological research vividly indicates the tensions that exist between art and what is considered sacred

Periodization in the Art Historiographies of Central and Eastern Europe Shona Kallestrup, Magdalena

Kunińska, Mihnea Alexandru Mihail, Anna Adashinskaya, Cosmin Minea, 2022-06-07 This volume critically investigates how art historians writing about Central and Eastern Europe in the late nineteenth and early twentieth centuries engaged with periodization At the heart of much of their writing lay the ideological project of nation building Hence discourses around periodization such as the mythicizing of certain periods the invention of historical continuity and the assertion of national specificity contributed strongly to identity construction Central to the book's approach is a transnational exploration of how the art histories of the region not only interacted with established Western periodizations but also resonated and entangled with each other In their efforts to develop more sympathetic frameworks that refined ignored or hybridized Western models they sought to overcome the centre periphery paradigm which equated distance from the centre with temporal belatedness and artistic backwardness The book thus demonstrates that the concept of periodization is far from neutral or strictly descriptive and that its use in art history needs to be reconsidered Bringing together a broad range of scholars from different European institutions the volume offers a unique new perspective on Central and Eastern European art historiography It will be of interest to scholars working in art history historiography and European studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Artists of Estonia, 2007 *Estonia and the Estonians* Toivo U. Raun, 2002-02-01 Estonia and the Estonians provides the first compendious survey in any language of Estonian history from prehistoric times to the twenty first century Estonia's strategic geopolitical location a crossroads where the major powers of northeastern Europe have struggled for influence and the small number of ethnic Estonians are crucial factors that have shaped the history of the area and its inhabitants The book emphasizes the period since the mid nineteenth century when a national movement calling for Estonian cultural and political autonomy began to emerge During the two world wars Estonia gained and lost political self determination Yet a modern Estonian culture was firmly established and a strong sense of national identity survived the Soviet era

Aino Kallas Leena Kurvet-Käösaar, Lea Rojola, 2011-07-12 The collection first one ever on Aino Kallas in English highlights her significance to the artistic and intellectual horizons of modernity of Finland and Estonia as well as those of Scandinavia and Europe In the 1920s and 30s Aino Kallas became an internationally renowned author and a selection of her work was translated into English For her participating in the immediate cultural debates in Estonia and Finland was a priority yet her whole oeuvre is a negotiation between her more immediate contexts and the leading conceptual frameworks of aesthetics geniality knowledge subjectivity race sexuality nature etc circling in Europe at the end of the 19th and the beginning of the 20th century Containing articles focusing on the question of female voice and echoes of feminist ecological thought in her fiction a contrapuntal reading of her fiction and that of Isak Dinesen her unknown manuscript Bathseba the implications of existentialist thought for her work Kallas engagement in her cultural criticism and life writings with decadent modernism issues of race and heredity subjectivity and borders travel ageing her interpretation of

Goethe and the iconography of Kallas the collection features the work of today's leading Aino Kallas scholars in Finland and in Estonia *The Routledge Handbook to Music under German Occupation, 1938-1945* David Fanning, Erik Levi, 2019-12-06

Following their entry into Austria and the Sudetenland in the late 1930s the Germans attempted to impose a policy of cultural imperialism on the countries they went on to occupy during World War II. Almost all music institutions in the occupied lands came under direct German control or were subject to severe scrutiny and censorship, the prime objective being to change the musical fabric of these nations and force them to submit to the strictures of Nazi ideology. This pioneering collection of essays is the first in the English language to look in more detail at the musical consequences of German occupation during a dark period in European history. It embraces a wide range of issues, presenting case studies involving musical activity in a number of occupied European cities as well as in countries that were part of the Axis or had established close diplomatic relations with Germany. The wartime careers and creative outputs of individual musicians who were faced with the dilemma of either complying with or resisting the impositions of the occupiers are explored. In addition, there is some reflection on the post-war implications of German occupation for the musical environment in Europe. *Music under German Occupation* is written for all music lovers, students, professionals and academics who have particular interests in 20th-century music and/or the vicissitudes of European cultural life during World War II.
