McManus,2013-05-28 This WWII history delivers a definitive account of D Day as seen through the eyes of American soldiers on the frontlines Thomas Fleming June 6 1944 marked the beginning of the most climactic and decisive phase of World War II in Europe Those who survived the intense fighting on the Normandy beaches found their lives irreversibly changed The day ushered in a great change for the United States as well because on D Day America began its march to the forefront of the Western world In the first of two volumes on the American contribution to the Allied victory at Normandy John C McManus vividly chronicles the American experience in the weeks leading up to D Day and on the great day itself From the build up in England to the night drops of airborne forces behind German lines and the landings on the beaches at dawn from the famed figures of Eisenhower Bradley and Lightnin Joe Collins to the courageous but little known privates who fought so bravely this is the story of the American experience at D Day With extensive archival research and the use of hundreds of firsthand accounts McManus delivers a gripping narrative history that examines what the battles at Utah and Omaha Beaches were really like and what drove American soldiers to fight and triumph despite all adversity
