Barbara Ann Brennan

As We See It From Here Lifes Energy Fields:

The Inner Dimensions of Life Niels Brønsted, 2024-02-15 The Inner Dimensions of Life is a compressed yet exhaustive educational presentation of the esoteric teachings in three volumes subtitled Esoteric Philosophy Esoteric Psychology and Esoteric Sociology With a background in many years of work as a teacher in his Esoteric School the author has gathered and edited a comprehensive and thoroughly tested curriculum including illustrations and copious source references Thus the work appeals to readers who will be content with a general view as well as those who wish to delve deeper into the subject The second volume Esoteric Psychology describes the conscious mental life of human beings and its evolution After the Introduction and an exposition of The Emotional Life The Mental Life and The Will Life ensues a comprehensive chapter on the Personality The next chapters concern the Building of the Antahkarana Consciousness Telepathy Clairvoyance and spiritual Guidance and Dreams and Obsession The book is rounded off with a thorough introduction to Meditation the basic technique for spiritual development

The Human Energy Field — Hidden Structures Cathy Chapman, 2020-06-18 In Western medicine health care practitioners learn physical anatomy There is another anatomy just as important the energetic anatomy If you have read the previous books in this series you not only learned about your spiritual anatomy some of which had never been revealed at least I d never heard about it but also how to heal these aspects of yourself Just by reading the healing experiences you receive the healing In this book you will learn about structures you might have heard of but know little about such as the minor chakras the hara line the core star and so forth You also will learn about structures you never knew about such as the heart s healing center In every case you are taught how to bring healing and clarity to these structures Things have happened to you in this amazing life of yours that hide the love you are When things happen there is damage to your energy field A damaged energy field will result in damage to any of your bodies emotional mental spiritual and physical Because every aspect of you is part of an integrated whole when one part is damaged then all parts are affected in some way Read this book with an open heart Set your intention for healing Know that as you read with an open heart you are being healed Often the layers are many Every time you ask you are healed Even small healings have a powerful impact on you your life and those around you Each time you are healed that healing releases from you an energy that might have been triggered by another resulting in another person being wounded Your healing prevents a deep wound from moving across the planet which prevents someone else from being wounded which prevents another person from being wounded and on and on When you repair even the smallest part of your energy field you raise your vibration and life is easier

The Energetic Anatomy of Life Sabine Rauch, Olle Svensson, 2025-06-23 Every living being is made up of a unique pattern of energies Every person is born with specific individual energies and is exposed to a variety of internal and external influences throughout their lives that shape their health and path through life This energetic anatomy is the basis of energy medicine Energy medicine is increasingly becoming the focus of complementary healing methods and is used by many patients in

addition to conventional medicine Many therapists deal with different types of energetic methods but often there is still a lack of knowledge regarding the philosophical foundations and the overarching holistic contexts Energetic basic models from Traditional Chinese Medicine TCM and Ayurvedic medicine with their chakra teachings are combined with the knowledge from psychosynthesis and the traditional knowledge of the 7 energetic archetypes 7 rays and the 12 energetic archetypes from astrology in order to be able to show a unique individual overall picture the energetic anatomy of each person In addition to a theoretical part the reader will find a practical part with the possibility of energetic diagnosis and another part with energetic coaching with many exercises yoga breathing exercises attention exercises exercises from psychosynthesis nutritional recommendations etc and assistance for important lifestyle changes This book is therefore primarily intended for therapists who want to deal intensively with energy medicine and is intended to serve as a reference work and as an aid in coaching your patients At the same time it is also intended to help people in their search for SELF knowledge who have embarked on the path of spiritual development or want to embark on this path Knowledge of one's own energetic characteristics can help individuals to use their energetic strengths and weaknesses sensibly in the course of life for their own physical emotional and mental health and individual life goals
