Coworking Spaces Janet Merkel,Dimitris Pettas,Vasilis Avdikos,2023-11-07 This contributed volume considers the emergence of coworking as centered in labor issues More specifically its chapters consider it as a coping mechanism in the worldwide rise of independent modes of work i e self employment that leaves more and more workers exposed to precarity as they must organize and manage their own labor Grounded in this perspective this volume aims to understand the transformative social and political potentials emerging through coworking as a social and spatial practice There is a distinct lack of discussion within coworking research on the emancipatory potentials of coworking and if it is discussed more cautionary views prevail highlighting the ambivalence of coworking spaces both as a space of alternative economic practices and as integrated into market economies The aims of this collection are twofold First it aims to make visible the plurality of existing practices around shared resources in coworking and the assemblages of human and non human actors as agents of change associated with coworking and the re organization of work and labor power And second it aims to develop a more emancipatory narrative for coworking and the role of coworking spaces for workers but also the different spatial contexts in

which these spaces are situated A narrative that does not emphasize entrepreneurship or coworking as the epitome of the neoliberal entrepreneurial self as in the dominant interpretations in the current research but rather one that centers coworking in the creation of meaningful careful social relationships supporting empathy and an ethics that recognizes mutual interdependencies and builds a foundation for social change So it is about alternative narratives emancipation politics and the wider social role that coworking spaces might play in neighborhoods cities or beyond because they are crucial contexts for the formation and maintenance of social relations With this specific direction this collection aims to bring coworking research into a fruitful dialog with other research fields such as sociology of work feminist perspectives on care alternative and diverse economies post capitalist transformation critical geography positioning coworking within a range of progressive alternatives in the articulation of economic and social relationships

Awakening the Management of Coworking Spaces Ricarda B. Bouncken, 2023-01-24 In *Awakening the Management of Coworking Spaces* the chapter authors combine a scientific approach with managing implications developing theoretic constructs reporting qualitative and quantitative findings about challenges potentials effects managerial solutions and success stories

European Narratives on Remote Working and Coworking During the COVID-19 Pandemic Mina Akhavan, Marco Hölzel, Divya Leducq, 2023-05-02 This open access book offers a multidisciplinary and comprehensive perspective regarding the immediate and long term effects of the Covid 19 pandemic on coworking spaces in the European Region The current pandemic has imposed several effects on work and spaces for work Some are immediate effects and will last for a short time such as the closing down of the space some will last longer namely the reorganisation of the space to meet the physical distancing and some will stay for a long time remote working and hybrid working Although the literature on coworking spaces and the effects of the pandemic is growing fast empirical studies are yet limited Within this context this book seeks a twofold aim i to contribute to the fast growing literature on coworking space and their effects at different scales ii to present a multidisciplinary perspective about the effects of the yet lasting Corona pandemic effects on the patterns of remote working and consequently on coworking spaces as the most diffused form of new working spaces

Digitalization of Work Emilie Vayre, 2022-06-08 *Digitalization of Work* brings together researchers and international experts whose work and practices are based on a variety of disciplines such as work and organizational psychology social psychology ergonomics communication and information sciences and management sciences This book closely examines the challenges associated with recent or emerging ways of working related to the digitalization of work It acts as a directory of contributions that enrich recent thought and approaches to the deployment and accompaniment of the ways in which work is organized including practices and environments likely to gain relevance in coming years remote working and management coworking for salaried employees flexible office spaces working from home and nomadism

Coworking Atmospheres Alexandra Bernhardt, 2023-07-07 The study by Alexandra Bernhardt deals with coworking spaces and their atmospheres In addition to a comprehensive consideration of the role of atmospheres the special

significance of community in the context of these work spaces is examined in more detail Two case studies in urban coworking spaces form the core of the investigation following a qualitative research design oriented towards ethnography and a plurality of methods In the context of the analysis on the one hand what constitutes coworking in everyday life and thus the new communality at work is considered relevant practices and rituals spatial arrangements and atmospheres are elaborated in their composition On the other hand coworkers their spatial actions and the attitudes associated with them come into closer focus It is shown how users access coworking spaces as work and community spaces and what role atmospheres play In addition social entities are highlighted that are taken up by coworkers in relation to their coworking space and that help shape everyday coworking space life Tensions that arise from the coexistence of community and service logic are also uncovered and how they are dealt with is examined in more detail

The Coworking (R)evolution

Diane-Gabrielle Tremblay, Gerhard Krauss, 2024-02-12 The digitalization of work processes and the generalization of IT are creating unprecedented opportunities An increasing part of the workforce is experimenting with new forms of work as freelancers self employed or highly skilled employees with greater autonomy International in scope this book comprehensively explores these new models of work mobility and life trajectories and the increasing role of non metropolitan coworking spaces

Passionate Work Renyi Hong, 2022-04-04 In *Passionate Work* Renyi Hong theorizes the notion of being passionate about your work as an affective project that encourages people to endure economically trying situations like unemployment job change repetitive and menial labor and freelancing Not simply a subject of aspiration passion has been deployed as a means to build resilience and mend disappointments with our experiences of work Tracking the rise of passion in nineteenth century management to trends like gamification coworking and unemployment insurance Hong demonstrates how passion can emerge in instances that would not typically be understood as passionate Gamification numbs crippling boredom by keeping call center workers in an unthinking suspensive state pursuing even the most banal tasks in hope of career advancement Coworking spaces marketed toward freelancers combat loneliness and disconnection at the precise moment when middle class surties are profoundly threatened Ultimately Hong argues the ideal of passionate work sustains a condition of cruel optimism in which passion is offered as the solution for the injustices of contemporary capitalism

Right here, we have countless book **Coworking Spaces Manual** and collections to check out. We additionally allow variant types and afterward type of the books to browse.
