Campbell, 1965-06-10 American Policy Toward Communist Eastern Europe was first published in 1965 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Perhaps no aspect of American foreign relations has been in greater need of clarification and understanding than our policy toward the Communist nations of Eastern Europe both as to what has happened in the past and what is possible for the future In this book a former State Department Official now on the staff of the Council on Foreign Relations provides objective information which will help students professors members of adult study groups and others concerned with American foreign policy to understand and discuss this important subject Mr Campbell reminds us that the cold war began in Eastern Europe in the aftermath of the second World War Since that time the question of what to do about Eastern Europe has been in the forefront of American foreign policy For some years he contends we have been uncertain of our objectives and ambivalent in our policies Meanwhile changes since the death of Stalin have created new situations both for the Soviet Union and for the West In analyzing what has happened the author emphasizes the forces which have shaken the unity of the Soviet bloc to create new perspectives and possibilities He discusses the effects of the Soviet Chinese split the relationship of the German question to that of Eastern Europe and the phenomenon of national Communism as it has appeared in different forms in Yugoslavia Poland Rumania and elsewhere After presenting the historical background the author discusses American aims and current policies and outlines the choices he sees ahead He does not plead for any one of the alternative lines of action presenting them rather as a basis for reasoned consideration and debate

U.S. Policy Toward Eastern Europe And The Soviet Union Robert F. Byrnes, 2021-11-18 This volume consists of a collection of essays written by Professor Byrnes between 1956 and 1988 The papers vary considerably in focus and include policy issues that were significant at the time with the Cold War analyses around the post war containment theory In addition there is a consistent viewpoint and argument in Byrnes reflections on East West relations A central theme throughout the collection is the essential correctness of U S foreign policy toward the Soviet Union and Eastern Europe between 1946 and 1988

American Alliance Policy in the Middle East, 1945-1992 John P. Miglietta, 2002-01-01 American Alliance Policy in the Middle East provides a stimulating new look at a U S Cold War foreign policy gripped by anticommunist paranoia Through

case studies of America's relationships with Iran, Israel, and Saudi Arabia. John P. Miglietta reveals how an overriding fear of global communism led to the overcommitment of U.S. security resources to the region. The perceived need to preserve Middle East stability rendered U.S. policy ineffectual and unresponsive to changing local conditions, drastically altering the patron-client paradigm to the detriment of American strategic interests. This superb analysis of American foreign policymaking illustrates how Cold War anticommunist ideology prevented the evolution of traditional military alliances into broader based relationships and perpetuated authoritarian regimes that mired the Middle East in a cycle of poverty and despotism.
