American Ukrainian Nuclear Relations:

American-Ukrainian nuclear relations Roman Popadiuk,1996 On June 1 1996 the last strategic missiles were shipped from Ukraine to Russia bringing to an end a contentious issue that had marred the early stages of U S Ukraine relations In welcoming this development President Clinton stated I applaud the Ukrainian government for its historic contribution in reducing the nuclear We remain committed to supporting Ukraine through its ambitious and far sighted reforms and to working with Ukraine and our European partners to promote Ukraine s integration into the European community Elimination of Ukraine s strategic warheads was a goal that had spanned two U S administrations and that had been at the center of Western concerns There were many obstacles that had to be overcome on all sides Through a combination of diplomacy and cajoling Ukraine had undertaken a final ratification of the START Treaty in February 1994 and acceded to the Nuclear Non Proliferation Treaty in November 1994 And in January 1994 in the Trilateral agreement the United States Ukraine and Russia laid the foundation for the elimination of the warheads that was completed in 1996 and that led to President Clinton s positive assessment This study examines the early history of U S Ukraine relations over the nuclear weapons issue It presents both the history of a 2 year period 1992 1994 and posits a number of explanations as to why things developed the way they did The goal is to establish a framework of this important period from which scholars can further proceed

Jones, 2018-05-08 This title was first published in 2002 Examining the development of and rationale behind the Ukrainian export control system this text uses an original theoretically informed case study methodology to explain how and why Ukraine has continued to emphasize the importance of not only maintaining but augmenting its export control system Furthermore it assesses the utility of four international relations approaches in explaining non proliferation export control development This groundbreaking study on Ukrainian politics and economics is ideally suited to audiences of European Ukrainian and US policy makers academics and specialists in security and political economy

Transatlantic Relations after the Russian-Ukrainian War Lorenzo Cladi, 2025-06-30 This book provides a neorealist explanation of transatlantic relations and explores key issues at the forefront of the relationship between the US and its European allies in the context of the Russia Ukraine war Transatlantic relations involving the relationship between the United States and its European counterparts are an essential feature and a cornerstone of the foreign policy of many states Whilst the transatlantic allies share a relationship that has been in place since 1945 the re election of Donald J Trump as US President the continuing war between Russia and Ukraine and unsettled issues around European strategic autonomy all pose questions on the state of the partnership This book utilises a neorealist theoretical framework to tackle these questions It argues that transatlantic relations continue to prosper and European states remain dependent on the US for their security which is made viable and necessary by means of dealing with collective threats to the security of transatlantic allies of which the Russian invasion of Ukraine is the most obvious recent manifestation The book also deals with other notable case studies of transatlantic relations such as the French

intervention in Mali and the US withdrawal from Afghanistan This book will be of interest to students of European security
