Anglo Swedish Alliance Against Napoleonic France:

The Anglo-Swedish Alliance Against Napoleonic France C. Jorgensen, 2004-03-31 This new study by Christer Jorgensen addresses a much neglected field of study in the history of Scandinavia and the greater Baltic region during the Napoleonic Age The book concentrates upon relations and the alliance between Britain and Sweden during the middle years of the war years that encompassed the Austerlitz campaign the complicated diplomatic talks between the allies Russia's abandonment of the allied cause at Tilsit 1807 the Russo Swedish War 1808-09 that decided the fate of Finland the capitulation of the Gibraltar of the North and finally the turbulent politics of Sweden during and after the coup of March 1809

The Napoleonic Wars Alexander Mikaberidze, 2020-01-13 The first truly global history of the Napoleonic Wars the world's first world war

Experiences of War in Europe and the Americas, 1792-1815 Mark Lawrence, 2021-07-20 This work seeks to offer a new way of viewing the French Wars of 1792-1815 Most studies of this period offer international political and military analyses using the French Revolution and Napoleon as the prime mover But this book focuses on military and civilian responses to French Revolutionary and Napoleonic wars throughout the rest of Europe and the Americas It shows how the unprecedented mobilization of this era forged a generation of soldiers and civilians sharing a common experience of suffering bequeathing the West with a new veteran sensibility Using a range of sources especially memoirs this book reveals the adventure and suffering confronting ordinary soldiers campaigning in Europe and the Americas and the burdens imposed on civilians enduring rising and falling empires across the West It also reveals how the wars liberated slaves serfs and common people through revolutions and insurgencies

The French Revolutionary and Napoleonic Wars Jeremy Black, 2021-02-09 The wars between 1792 and 1815 saw the making of the modern world with Britain and Russia the key powers to emerge triumphant from a long period of bitter conflict In this innovative book Jeremy Black focuses on the strategic contexts and strategies involved explaining their significance both at the time and subsequently Reinterpreting French Revolutionary and Napoleonic warfare strategy and their consequences he argues that Napoleon's failure owed much to his limitations as a strategist Black uses this framework as a foundation to assess the nature of warfare the character of strategy and the eventual ascendancy of Britain and Russia in this period Rethinking the character of strategy this is the first history to look holistically at the strategies of all the leading belligerents from a global perspective It will be an essential read for military professionals students and history buffs alike

Napoleon's Empire Ute Planert, 2016-01-26 The Napoleonic Empire played a crucial role in reshaping global landscapes and in realigning international power structures on a worldwide scale When Napoleon died the map of many areas had completely changed making room for Russia's ascendancy and Britain's rise to world power

Napoleonic Wars Frederick C. Schneid, 2012 The essential bibliography of the Napoleonic Wars

The Birth of a Great Power System, 1740-1815 Hamish Scott, 2014-07-22 The Birth of a Great Power System 1740-1815 examines a key development in modern European history the

origins and emergence of a competitive state system H M Scott demonstrates how the well known and dramatic events of these decades the emergence of Russia and Prussia the three partitions of Poland the continuing retreat of the Ottoman Empire the unprecedented territorial expansion of Revolutionary and Napoleonic France halted by the final defeat of Napoleon were part of a wider process that created the modern great power system dominated by Europe's five leading states Enhanced by maps and a chronology of principal events this comprehensive and accessible textbook is fully up to date in its coverage of recent scholarship Unlike many other treatments of this period Scott extends his beyond the French Revolution of 1789 in order to demonstrate how events both before and after this great upheaval merged to produce the central political development in modern European history This book addresses the crucial phase in the emergence of the modern international system which with the subsequent addition of the USA Japan and Russia has prevailed until the present day

Warfare in Europe 1792-1815 Frederick C. Schneid, 2017-11-22 This collection of essays provides a broad strategic interpretation of European warfare from 1792-1815 Unlike traditional military histories which focus on a revolution in military affairs from the French view this volume offers a general European perspective placing the armies and the wars in historical context while addressing substantive changes to respective military systems

The British Navy in the Baltic John D. Grainger, 2014 A comprehensive overview of the activities of the British navy in the Baltic Sea from the earliest times until the twentieth century
