David G. Mayes, Peter Hart, 1994-10-06 This 1994 book offers a comparison of British and German industries reaction to the opportunities and threats offered by the single European market SEM It outlines the effect that the SEM was expected to have on the two countries and contrasts this with their actual progress based on published data and a detailed study of four industries While the single European market has had an impact many measures have had a far weaker effect than expected The existence of other barriers not tackled by the SEM programme weakened measures poor implementation global business trends and the recent recession helps dominate the impact of the SEM Nevertheless the SEM stands out as one of the striking influences on British and German industries for many years Germany with its geographical advantage and stronger manufacturing seems better placed to benefit but the less regulated and often more flexible UK economy may have competitive advantages as the pressures increase **AGGREGATE RESULTS OF THE SINGLE MARKET PROGRAMME**

Christoph Böhringer, Andreas Lange, 2006-03-30 Sustainable development climate policy and biodiversity conservation are examples of issues on the current political agenda in many countries These themes are also subject to economic research and economic insights are increasingly finding their way into the design of environmental policy Still the reception of academic findings by policy makers as well as the timely identification of policy relevant questions by economic researchers often seem to be problematic This volume attempts to vitalise the exchange between policy makers and academics It offers a snapshot of environmental economic research on a range of policy relevant problems Academic contributions are complemented by views of policy makers on priority fields in environmental policy the usefulness of academic research for decision making and requirements to applied research in the future **Economic Impact of EU Membership on Entrants** Richard E.

Baldwin, Aymo Brunetti, 2013-03-09 As part of its EU strategy the Swiss government commissioned several research projects covering the most important aspects of economic integration Given the interesting results and the wealth of methods used in these studies we decided to organize a conference on the topic of The Economic Impact of EU Membership on Entrants New Methods and Issues The idea was to use the work on Switzerland as a case study for discussing modern approaches on how to assess the economic effects of joining an integration zone This seemed to us to be a topic of considerable interest for the

rising number of prospective EU member countries The response was very favourable with many eminent scholars agreeing to contribute The conference took place in Lausanne Switzerland in October 1999 and the papers submitted together with the discussions are published in this volume We would like to acknowledge the financial support of the Swiss State Secretariat for Economic Affairs and to thank the University of Lausanne for providing the venue facilities for the conference Many persons helped in the preparation of the conference and this volume but we would like to especially mention Marc Surchat who provided substantial input for the conference and Walter Brodmann who very efficiently reviewed and finalized the manuscript The Editors RICHARD E BALDWIN AND A YMO BRUNETTI THE ECONOMIC IMPACT OF EU MEMBERSHIP ON ENTRANTS NEW METHODS AND ISSUES INTRODUCTION What a transformation Europe has witnessed in the past 15 years *The Single Market and Tomorrow's Europe* David Buchan, European Commission, 1996 Summarizes the progress of the single market to date Provides an essential key to the review of the single market undertaken by the European Commission *EBOOK: The European Union: Economics, Policy and History* SENIOR, 2011-11-16 EBOOK The European Union Economics Policy and History
