Britain and the China Trade 1635-1842 Patrick J. N. Tuck,2000 Britain and the China Trade 1635-1842 ,2000

The British Presence in Macau, 1635-1793 Rogério Miguel Puga,2013-05-01 For more than four centuries Macau was the centre of Portuguese trade and culture on the South China Coast Until the founding of Hong Kong and the opening of other ports in the 1840s it was also the main gateway to China for independent British merchants and their only place of permanent residence Drawing extensively on Portuguese as well as British sources The British Presence in Macau traces Anglo Portuguese relations in South China from the first arrival of English trading ships in the 1630s to the establishment of factories at Canton the beginnings of the opium trade and the Macartney Embassy of 1793 The British and Portuguese longstanding allies in the West pursued more complex relations in the East as trading interests clashed under a Chinese imperial system and as the British increasingly asserted their power as a community in search of a colony **Sino-French Trade at Canton, 1698-1842** Susan E. Schopp,2020-11-02 Sino French Trade at Canton 1698 1842 presents a rare and lively view of the French experience at Canton and calls for a reappraisal of France s role in that trade France was one of the two most important Western powers in the eighteenth century and was home to one of the three major European East India companies Yet the nation is woefully underrepresented in Canton trade scholarship Susan E Schopp rescues the French from the sidelines showing that they exerted a presence that though closely watched by their rivals is today largely unrecognized Their contributions were diverse ranging from finding new sea routes to inspiring the renovation of hong fa ades Consequently to ignore the French or to dismiss them as simply also rans results in a skewed perception of the Canton system Schopp also demonstrates that while the most distinctive aspect of the French model of company trade was the dominant role of the state indeed the French East India Company has been memorably described as a Versailles of trade this did not rule out a place for legitimate and sometimes surprising participation by the private sector On the contrary France s commercial relations with China were inaugurated by private traders and the popularity of the Canton trade spurred the eventual demise of the company model Backed up by extensive archival work Schopp s work demonstrates a remarkable understanding of the Sino European trade and her book reveals an unparalleled passion for the role of seamanship in history It is shocking how little has been written in any language about French trade in China so this excellent book fills a tremendous need It has the potential to become a classic monograph of lasting significance an outstanding work that will make a strong imprint on the historiography Tonio Andrade Emory University Schopp s valuable study shows that the French ought not to be considered also rans in European trade with China The French way was in fact a distinctive model of European trade with China one different from that of the better known English East India Company The author s comprehensive research takes the reader into the material history of the French trading vessels the hong and the personnel involved in the trade Robert Aldrich University of Sydney The Instructions of the East India Company to Lord Macartney
