Britain And 1940 History Myth And Popular Memory

Michael Brown

Britain And 1940 History Myth And Popular Memory:

Britain and 1940 Malcolm Smith, 2000 1940 was the most significant year in European history this century this book examines what it meant for the people of Britain then and now Malcolm Smith details the resultant influences that have constructed our national consciousness

Britain and the Holocaust Caroline Sharples, Olaf Jensen, 2013-11-19 How has Britain understood the Holocaust This interdisciplinary volume explores popular narratives of the Second World War and cultural representations of the Holocaust from the Nuremberg trials of 1945-6 to the establishment of a national memorial day by the start of the twenty first century

The Churchill Myths Steven Fielding, Bill Schwarz, Richard Toye, 2020-08-14 This is not a book about Winston Churchill It is not principally about his politics nor his rhetorical imagination nor even about the man himself Instead it addresses the varied afterlives of the man and the persistent deeply located compulsion to bring him back from the dead capturing and explaining the significance of the various Churchill myths to Britain's history and current politics The authors look at Churchill's portrayal in social memory They demonstrate the ways in which politicians have often used the idea of Churchill as a means of self validation using him to show themselves as tough and honest players They show the man dramatized in film and television an onscreen persona that is often the product of a gratuitous mixing of fact and fantasy one deliberately shaped to meet the preferences of the presumed audience They discuss his legacy in light of the Brexit debate showing how public figures on both sides of the Leave Remain debate were able to use elements of Churchill's words and character to argue for their own point of view

Social Identities Steve Spencer, Gary Taylor, 2004-08-02 *Social Identities* argues that we have a collection of social selves and that our identities are influenced by such things as class gender sexuality race nationality religious views and by the media

Out of the Ordinary Marc Stears, 2021-01-12 From a major British political thinker and activist a passionate case that both the left and right have lost their faith in ordinary people and must learn to find it again This is an age of polarization It's us vs them The battle lines are clear and compromise is surrender As *Out of the Ordinary* reminds us we have been here before From the 1920s to the 1950s in a world transformed by revolution and war extreme ideologies of left and right fueled utopian hopes and dystopian fears In response Marc Stears writes a group of British writers artists photographers and filmmakers showed a way out These men and women including J B Priestley George Orwell Barbara Jones Dylan Thomas Laurie Lee and Bill Brandt had no formal connection to one another But they each worked to forge a politics that resisted the empty idealisms and totalizing abstractions of their time Instead they were convinced that people going about their daily lives possess all the insight virtue and determination required to build a good society In poems novels essays films paintings and photographs they gave witness to everyday people's ability to overcome the supposedly insoluble contradictions between tradition and progress patriotism and diversity rights and duties nationalism and internationalism conservatism and radicalism It was this humble vision that animated the great Festival of Britain in 1951 and put everyday citizens at the heart of a new vision of national regeneration

A leading political theorist and a veteran of British politics Stears writes with unusual passion and clarity about the achievements of these apostles of the ordinary They helped Britain through an age of crisis Their ideas might do so again in the United Kingdom and beyond *The Transformation of the Psyche in British Primary Care, 1870-1970* Rhodri Hayward, 2014-02-25 Conflicting models of selfhood have become central to debates over modern medicine Yet we still lack a clear historical account of how this psychological sensibility came to be established The Transformation of the Psyche in British Primary Care 1880 1970 will remedy this situation by demonstrating that there is nothing inevitable about the current connection between health identity and personal history It traces the changing conception of the psyche in Britain over the last two centuries and it demonstrates how these changes were rooted in transformed patterns of medical care The shifts from private medicine through to National Insurance and the National Health Service fostered different kinds of relationship between doctor and patient and different understandings of psychological distress The Transformation of the Psyche in British Primary Care 1880 1970 examines these transformations and in so doing provides new critical insights into our modern sense of identity and changing notions of health that will be of great value to anyone interested in the modern history of British medicine *The Cambridge Companion to the Literature of World War II* Marina MacKay, 2009-01-22 An overview of writing about the war from a global perspective aimed at students of modern literature **Reading London in Wartime** William Cederwell, 2017-11-06 Reading London in Wartime Blitz the People and Propaganda in 1940s Literature presents an expansive variety of writers and genres including non fiction and film approaches to build a comprehensive social picture of the atmosphere during wartime London From blitz and austerity to the nagging insistency of propaganda this volume examines the representation of London in wartime and early post war literature through each writer s unique perspective on the pressures of 1940s city life Exploring the use of London imagery this book considers how literature redirects attention to individual subjective experience at a time of enforced co operation uniformity and community Unlike government information films and news broadcasts which often used London to prop up prevailing clich s and stereotypes and encouraged patriotic support for the war literature had the freedom to express more recalcitrant truths London writing of the 1940s was not a literature of opposition or dissent but in offering more nuanced depictions of the period it was a counterweight to propaganda and the general war temperament In writing the city becomes a more complex place no longer the easy symbol of defiance and stoicism of the shared sacrifice of ration book and war work Nations as Zones of Conflict John Hutchinson, 2005 This compelling book argues that it is wrong to assume that nations are culturally uniform Hutchinson provocatively asserts that resting on older diverse ethnic identities nations adapt from the unpredictable challenges of modernity and such plurality makes them prone to cultural wars *New Zealand's London* Felicity Barnes, 2013-11-01 Antipodean soldiers and writers meat carcasses and moa British films and Kiwi tourists throughout the last 150 years people objects and ideas have gone back and forth between New Zealand and London defining and redefining the relationship

between this country and the colonial center that many New Zealanders once called home Exploring the relationship between a colony and its metropolis from Wakefield to the Wombles it answers questions including How did New Zealanders define themselves in relation to the center of British culture and How did New Zealanders view London when they walked through King s Cross or saw the city in movies By focusing on particular themes from agricultural marketing to expatriate writers this discussion develops a larger story about the construction of colonial and national identities
