Britain And Scotland 1850s 1979 Scottish Higher History S:

Britain and Scotland, 1850s-1979 John A. Kerr, 2006 Written by a highly experienced author and SQA marker this book addresses all the main issues in the appropriate part of the Higher syllabus including Democracy and the British people Government and People Changing Scottish Society 1880s 1939 and The Rise of Political Nationalism **The Battle for George Square 1919** Gordon Barclay, Louise Heren, 2025-10-16 The Battle of George Square a riot during the Forty Hours Strike in Glasgow on 31 January 1919 is routinely claimed to be one of the most iconic events in Scottish working class history It is also the most mythologised For a century the narrative created for the defence of the strike leaders charged with incitement to riot an unprovoked attack on a peaceful crowd as an act of oppression has been repeated uncritically by academic and popular writers Mythology has almost completely replaced reality most notably in the Scottish education system where educational materials have been described by two prominent historians as arrant propaganda and a perversion of history Now Gordon Barclay and Louise Heren have undertaken a meticulous examination of the contemporary evidence to tell a more complex story In doing so they examine the ways writers have failed to subject the celebratory mythology of this iconic event to adequate scrutiny They document the creation of the mythology from the writings of the strike leaders to those who use the mythology of the Battle to promote their own politics They also examine the legal basis and reality of the military deployment to Glasgow in the aftermath of the riot The Mid-Victorian Generation, 1846-1886 K. Theodore Hoppen, 1998 This the third volume to appear in the New Oxford History of England covers the period from the repeal of the Corn Laws to the dramatic failure of Gladstone's first Home Rule Bill In his magisterial study of the mid Victorian generation Theo Hoppen identifies three defining themes The first he calls established industrialism the growing acceptance that factory life and manufacturing had come to stay It was during these four decades that the balance of employment shifted irrevocably For the first time in history more people were employed in industry than worked on the land The second concerns the multiple national identities of the constituent parts of the United Kingdom Dr Hoppen's study of the histories of Ireland Scotland Wales and the Empire reveals the existence of a variety of particular and overlapping national traditions flourishing alongside the increasingly influential structure of the unitary state The third defining theme is that of interlocking spheres which the author uses to illuminate the formation of public culture in the period This he argues was generated not by a series of influences operating independently from each other but by a variety of intermeshed political economic scientific literary and artistic developments This original and authoritative book will define these pivotal forty years in British history for the next generation *Religion in Victorian Britain: Traditions* Gerald Parsons, 1988 This book is about science in theatre and performance It explores how theatre and performance engage with emerging scientific themes from artificial intelligence to genetics and climate change The book covers a wide range of performance forms from Broadway musicals to educational theatre from Somali drama to grime videos It features work by pioneering companies including Gob Squad Headlong Theatre

and Theatre of Debate as well as offering fresh analysis of global blockbusters such as Wicked and Urinetown The book offers detailed description and analysis of theatre and performance practices as well as broader commentary on the politics of theatre as public engagement with science Science in performance is essential reading for researchers students and practitioners working between science and the arts within fields such as theatre and performance studies science communication interdisciplinary arts and health humanities

Scotland's Populations from the 1850s to Today Michael Anderson, 2018-03-01 Scotland's Populations is a coherent and comprehensive description and analysis of the most recent 170 years of Scottish population history With its coverage of both national and local themes set in the context of changes in Scottish economy and society this study is an essential and definitive source for anyone teaching or writing on modern Scottish history sociology or geography Michael Anderson explores subjects such as population growth and decline rural settlement and depopulation and migration and emigration It sets current and recent population changes in their long term context exploring how the legacies of past demographic change have combined with a history of weak industrial investment employment insecurity deprivation and poor living conditions to produce the population profiles and changes of Scotland today While focussing on Scottish data Anderson engages in a rigorous treatment of comparisons of Scotland with its neighbours in the British Isles and elsewhere in Europe which ensures that this is more than a one country study The Cambridge Social History of Britain, 1750-1950 F. M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians have had no difficulty in finding their subject The difficulty rather is that the advance has occurred through such an outpouring of research and writing that it is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of recent monographic research and presented an interpretation of the development of modern British society since 1750 from three complementary perspectives those of regional communities of the working and living environment and of social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

A Companion to Nineteenth-Century Britain Chris Williams, 2006-10-20 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading

The Schooling of Girls in Britain and Ireland, 1800- 1900 Jane McDermid, 2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in

1801 The Schooling of Girls in Britain and Ireland 1800 1900 presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes Women's History: Britain, 1850-1945 June Purvis, 2008 **The Statesman's Year-Book 1979-80** J. Paxton, 2016-12-23 The classic reference work that provides annually updated information on the countries of the world
