Legends and Romances of Brittany Lewis Spence, 2020-09-28 The romantic region which we are about to traverse in search of the treasures of legend was in ancient times known as Armorica a Latinized form of the Celtic name

Armor On the Sea The Brittany of to day corresponds to the departments of Finist re C tes du Nord Morbihan Ille et Vilaine and Loire Inf rieur A popular division of the country is that which partitions it into Upper or Eastern and Lower or Western Brittany and these tracts together have an area of some 13 130 square miles Such parts of Brittany as are near to the sea coast present marked differences to the inland regions where raised plateaux are covered with dreary and unproductive moorland These plateaux again rise into small ranges of hills not of any great height but from their wild and rugged appearance giving the impression of an altitude much loftier than they possess The coast line is ragged indented and inhospitable lined with deep reefs and broken by the estuaries of brawling rivers In the southern portion the district known as the Emerald Coast presents an almost subtropical appearance the air is mild and the whole region pleasant and fruitful But with this exception Brittany is a country of bleak shores and grey seas barren moorland and dreary horizons such a land as legend loves such a region cut off and isolated from the highways of humanity as the discarded genii of ancient faiths might seek as a last stronghold Regarding the origin of the race which peoples this secluded peninsula there are no wide differences of opinion If we take the word Celt as describing any branch of the many divergent races which came under the influence of one particular type of culture the true originators of which were absorbed among the folk they governed and instructed before the historic era then the Bretons are Celts indeed speaking the tongue known as Celtic for want of a more specific name exhibiting marked signs of the possession of Celtic customs and having those racial characteristics which the science of anthropology until recently laid down as certain indications of Celtic relationship the short round skull swarthy complexion and blue or grey eyes It is to be borne in mind however that the title Celtic is shared by the Bretons with the fair or rufous Highlander of Scotland the dark Welshman and the long headed Irishman But the Bretons exhibit such special characteristics as would warrant the new anthropology in labelling them the descendants of that Alpine race which existed in Central Europe in Neolithic times and which perhaps possessed distant Mongoloid affinities This people spread into nearly all parts of Europe and later in some regions acquired Celtic speech and custom from a Celtic aristocracy It is remarkable how completely this Celtic leaven the true history of which is lost in the depths of prehistoric darkness succeeded in impressing not only its language but its culture and spirit upon the various peoples with whom it came into contact To impose a special type of civilization upon another race must always prove a task of almost superhuman proportions To compel the use of an alien tongue by a conquered folk necessitates racial tact as well as strength of purpose But to secure the adoption of the racial spirit by the conquered and adherence to it for centuries so that men of widely divergent origins shall all have the same point of view the same mode of thought manner of address aye even the same facies or general racial appearance as have Bretons some Frenchmen Cornishmen Welshmen and Highlanders that surely would argue an indwelling racial strength such as not even the Roman or any other world empire might pretend to But this Celtic civilization was not one and undivided In late prehistoric times it evolved from one mother tongue two dialects which afterward displayed all the differences of

separate languages springing from a common stock These are the Goidelic the tongue spoken by the Celts of Scotland Ireland and the Isle of Man and the Brythonic the language of the Welsh the Cornish and the people of Brittany **Legends and Romances of Brittany** Lewis Spence,1917 **A Childhood in Brittany Eighty Years Ago** Anne Douglas Sedgwick,1919 *Backstage Pass* Riley Scott,2016-07-01 Everyone s favorite rock n roll bad girl has gone too far this time Raven loved by her millions of fans suffers many sleepless nights and haunted memories and years of hard living are beginning to take their toll When scandal finally breaks Raven is forced to hire a public relations guru to refine her image Christina Villanova is looking for a new challenge at work and with Raven she s certainly found one She decides to take on what many others have failed cleaning up Raven s brand Christina is undeniably drawn to Raven once she sees that Raven s bravado masks her underlying passion For her part Raven seems hell bent on maintaining her rough around the edges facade severely testing Christina s cool professionalism As Raven s behavior escalates dangerously Christina realizes she s not just fighting for Raven s popularity she s fighting for Raven s heart and her future *A Childhood in Brittany Eighty Years Ago* Anne Douglas Sedgwick,2019-12-04 In *A Childhood in Brittany Eighty Years Ago* Anne Douglas Sedgwick transports readers to a picturesque yet complex world of rural Brittany Through lyrical prose she evokes the sensory details of her youth weaving memories with vibrant descriptions of landscape culture and the unyielding passage of time Sedgwick s narrative style eschews conventional chronology opting instead for a richly impressionistic tapestry that mirrors the fluidity of memory and the innocence of childhood Set against the backdrop of late 19th century France the book resonates with themes of nostalgia identity and the interplay between the individual and the pastoral environment Sedgwick a prominent figure in the early 20th century literary scene was shaped by her transatlantic upbringing and experiences in both Britain and America Her keen interest in nature combined with her literary prowess infused her writings with a profound sense of place and an understanding of the human condition Sedgwick s reflections are further colored by her familial connections to Brittany which deepen the authenticity of her childhood recollections and foster a sense of shared experience with her readers Engaging and evocative *A Childhood in Brittany Eighty Years Ago* is recommended for those who seek to explore the intersections of memory landscape and identity Sedgwick s vivid recollections not only entertain but invite readers to reflect on their own pasts making this work a timeless exploration of what it means to remember and to belong *Women's Work and Identity in Eighteenth-Century Brittany* Dr Nancy Locklin,2013-06-28 Based on a solid foundation of archival research that ranges from tax rolls to notarial records this study adds an important chapter to our understanding of women in pre industrial Europe Through a rigorous examination of primary documents peculiar to eighteenth century Brittany the author demonstrates the difficulties engendered in broad generalities about European women and makes a strong case for the necessity for historians to account for regional differences in women s experiences In particular Nancy Locklin makes a compelling argument for the need to incorporate a broader basis upon which women attained their identity Indeed Locklin

rightly contends that most women in pre industrial European societies were recognized and perhaps saw themselves through a variety of identities over the course of their lives depending on their age familial connections marital status and the type of work they performed and that often these identities overlapped Locklin also shows the extent to which legal and ideological prescriptions painted a relatively negative picture of women s status but that a close examination of women s participation in family community and commercial affairs reveals a much more complex and divergent reality **Views from the Spectrum**
