Carl Stecher, Craig L. Blomberg

Agents Under Fire Materialism And The Rationality Of Science:

Agents Under Fire Angus J. L. Menuge, 2004 In the first study of its kind *Agents Under Fire* defends a robust notion of agency and intentionality against eliminative and naturalistic alternatives showing the interconnections between the philosophy of mind theology and Intelligent Design Menuge argues that Behe's irreducible complexity is a challenge to reductionism not only in biology but also in psychology and shows the inability of the Darwinian psychology proposed by Dawkins Dennett and Steven Pinker to explain the integration unity direction and reliability of rational thought This fascinating defense against scientific materialism is the only book length study relating Intelligent Design to contemporary issues in the philosophy of mind Drawing on his experience as both a philosopher and a computer scientist Menuge deftly shows the reader that the materialist's attempts to rid science of all commitment to teleology can only result in incoherence and presents instead his own unique argument for the legitimacy of Intelligent Design **The Waning of Materialism**

Robert C. Koons, George Bealer, 2010-03-25 The case against materialism comprises arguments from conscious experience from the unity and identity of the person from intentionality mental causation and knowledge Mind, Matter, and Nature

James D. Madden, 2013-06-01 Written for students *Mind Matter and Nature* presumes no prior philosophical training on the part of the reader The book nevertheless holds the arguments discussed to rigorous standards and is conversant with recent literature thus making it useful as well to more advanced students and professionals interested in a resource on Thomistichylomorphism in the philosophy of mind Understanding Jesus Peter S Williams, 2014-08-08 Examines the Gospel accounts

of Jesus life the claims of Jesus life and ministry Peter S Williams brings a philosopher's Jesus and argues that understanding the spirituality of Jesus is the path to our own spiritual enlightenment Williams takes issue with new atheist discussions of faith and historical Jesus studies before guiding Christian understanding of Jesus **Resurrection: Faith or Fact?** Carl

Stecher, Craig L. Blomberg, 2019-04-09 Is there enough evidence to believe Jesus rose from the dead or must such a judgment be based only on faith Can the resurrection story be considered a fact of history or should it be viewed as an ahistorical account Two renowned professors atheist Carl Stecher and Christian Craig Blomberg engage in a groundbreaking new debate on these very questions Other experts on the resurrection atheist Richard Carrier and Christian Peter S Williams comment on the outcome Presenting new approaches to these centuries old questions and taking into account the latest scholarly research *Resurrection Faith or Fact* is a must have not only for all those following the resurrection question but also for those skeptics and Christians alike who are interested in determining for themselves the truth behind this foundational doctrine of the Christian faith Getting at Jesus Peter S. Williams, 2019-01-29 Portraying themselves as challenging blind religious dogma with evidence led skepticism the neo atheist movement claims that the New Testament contains unreliable tales about a mythical figure who far from being the resurrected Lord of life may not even have lived This comprehensive critique documents the falsehood of these neo atheist claims correcting their historical and philosophical

mistakes to show how we can get at the truth about the historical Jesus The Chronicles of Narnia and Philosophy Gregory Bassham, Jerry L. Walls, William Irwin, 2013-11-13 The Chronicles of Narnia series has entertained millions of readers both children and adults since the appearance of the first book in 1950 Here scholars turn the lens of philosophy on these timeless tales Engagingly written for a lay audience these essays consider a wealth of topics centered on the ethical spiritual mythic and moral resonances in the adventures of Aslan the Pevensie children and the rest of the colorful cast Do the spectacular events in Narnia give readers a simplistic view of human choice and decision making Does Aslan offer a solution to the problem of evil What does the character of Susan tell readers about Lewis s view of gender How does Lewis address the Nietzschean master morality embraced by most of the villains of the Chronicles With these and a wide range of other questions this provocative book takes a fresh view of the world of Narnia and expands readers experience of it **Science vs. Religion** Steve Fuller, 2013-04-24 For centuries science and religion have been portrayed as diametrically opposed In this provocative new book Steve Fuller examines the apparent clash between science and religion by focusing on the heated debates about evolution and intelligent design theory In so doing he claims that science vs religion is in fact a false dichotomy For Fuller supposedly intellectual disputes such as those between creationist and evolutionist accounts of life often disguise other institutionally driven conflicts such as the struggle between State and Church to be the source of legitimate authority in society Nowadays many conservative anti science groups support intelligent design theory but Fuller argues that the theory s theological roots are much more radical based on the idea that humans were created to fathom the divine plan perhaps even complete it He goes on to examine the unique political circumstances in the United States that make the emergence of intelligent design theory so controversial yet so persistent Finally he considers the long term prognosis arguing that the future remains very much undecided as society reopens the question of what it means to be human This book will appeal to all readers intrigued by the debates about creationism intelligent design and evolution especially those looking for an intellectually exciting confrontation with the politics and promise of intelligent design theory

Darwinian Evolution and Classical Liberalism Stephen C. Dille, 2013-05-02 Darwinian Evolution and Classical Liberalism canvasses an array of thinkers from the past to the present as it examines fundamental political philosophical ethical economic anthropological and scientific aspects of the ferment between Darwinian biology and classical liberalism Early chapters focus on classical thinkers like John Locke and Adam Smith while later chapters provide analyses of present day classical liberals focusing especially on F A Hayek Thomas Sowell and Larry Arnhart the most prominent advocates of contemporary classical liberalism Thematically the volume falls into three parts Part I examines foundational matters arguing that Darwinism and classical liberalism hold incompatible visions of morality human nature and individual autonomy This section also contends that the free market s spontaneous order is fully compatible with a teleological or non Darwinian view of the universe Part II turns to contemporary applications contending that Darwinism and classical liberalism are at odds in

their views of or implications about limited government vital religion economic freedom and the traditional family This section also argues that since its inception Darwinism has attenuated core tenets and values of classical liberalism and Western civilization Part III of the volume contains alternative views to those in the first two parts adding critical diversity to the book Respectively these chapters hold that Darwinian evolution simply has little to say about classical liberalism an evolutionary account of human volition is fully compatible with the individual choice presupposed in classical liberalism and evolutionary naturalism unlike religious alternatives provides a strong foundation for freedom morality and the traditional family

S Lewis vs the New Atheists Peter S Williams, 2013-02-01 The book will counter the new atheist movement using the arguments of C S Lewis thereby appealing to readers interested in both loci and showing that there is nothing especially new about the new atheism How might C S Lewis the greatest Christian apologist of the twentieth century respond to the twenty first century new atheism of Richard Dawkins Christopher Hitchens and company Might Lewis own journey from atheism to Christian belief illuminate and undercut the objections of the new atheists Christian philosopher Peter S Williams takes us on an intellectual journey through Lewis conversion in conversation with today s anti theists This book shows the breadth depth and durability of Lewis s Christian apologetics Michael Ward chaplain at St Peter s College Oxford
