Britain And The Politics Of Modernization In The Middle East 1945 1958:

Britain and the Politics of Modernization in the Middle East, 1945-1958 Paul W. T. Kingston, 2002-11-07 In an historically informed critique of the theory and practice of development assistance this book examines Britain's foreign aid programme in the Middle East in the 1940s and 1950s After an assessment of the origins of what was dubbed the peasants not pashas policy notably the link between development sterling balances and post war imperial strategy the author focuses on planning and policy debates between British development experts their American rivals and Middle Eastern technocrats These debates which centred on issues such as afforestation irrigation and rural credit raise important questions about the nature and limits of the development process within the Middle East and the Third World which the author explores in his analysis This 1996 book will be of interest to development practitioners and scholars in development studies as well as to students of Middle East and imperial history

The End of the British Empire in the Middle East, 1952—1971 Wm. Roger Louis, 2025-02-20 The quarter century after the end of the Second World War and the transfer of power in India in 1947 marked the slow and turbulent dissolution of the British Empire in the Middle East Seeking to capture the period in its full complexity and contradictions acclaimed historian Wm Roger Louis here provides a through going account of the British Empire's gradual decline Unpicking the overlapping motivations of those across Britain the US and the Middle East the book demonstrates how and why enthusiasm for the British involvement in the region waned the chaotic ways in which the withdrawal unfolded and the importance of these events for understanding the region today The book explores the period in full detail from the overthrow of the Musaddiq government in Iran the Egyptian Revolution Sudan's independence and the events of the pivotal year of 1955 that set the stage for the Suez crisis the following year through the pivotal Suez crisis of 1956 itself to the crises of 1957 the Iraqi Revolution of 1958 and the 1967 Arab Israeli war and concluding with the collapse of the British position in Aden and the decision to withdraw from the Gulf a process completed by the end of 1971 This panoramic and comprehensive history draws on six decades work in archives across Europe the Middle East and the US including those from governmental archives and private papers and in multiple languages complemented by a considerable body of oral history testimony much of it acquired by the author through conversations with contemporary British politicians and officials In so doing the book sheds new light onto the nature and complexity of the British Empire in its final days and the importance of understanding this history today

The 1967 Arab-Israeli War Avi Shlaim, William Roger Louis, 2012-02-13 The June 1967 war was a watershed in the history of the modern Middle East In six days the Israelis defeated the Egyptian Syrian and Jordanian armies seizing large portions of their territories Two veteran scholars of the Middle East bring together some of the most knowledgeable experts in their fields to

reassess the origins and the legacies of the war Each chapter takes a different perspective from the vantage point of a different participant those that actually took part in the war and also the world powers that played important roles behind the scenes Their conclusions make for sober reading At the heart of the story was the incompetence of the Egyptian leadership and the rivalry between various Arab players who were deeply suspicious of each other s motives Israel on the other side gained a resounding victory for which despite previous assessments to the contrary there was no master plan

Marketing Democracy Erin A. Snider,2022-03-31 By focusing on the construction and practice of democracy aid this book shows how democracy aid can reinforce rather than challenge authoritarian regimes

Salafism in Lebanon Zoltan Pall,2018-04-05 The past two decades have seen an increasing association between Lebanese Salafism and violence with less attention being paid to Salafis who focus on peaceful proselytization In reality it is these Salafis whose influence has dramatically grown since the eruption of the Syrian conflict that profoundly affected Lebanon as well Based on extensive fieldwork Zoltan Pall offers insights into the dynamics of non violent Lebanese Salafi groups and examines the importance of transnational links in shaping the trajectory of the movement In particular he shows how the internal transformation of Salafism in Kuwait Qatar and Saudi Arabia led to the fragmentation of the Lebanese Salafi community By analysing Salafism as a network we see how the movement creates and mobilizes material and symbolic resources and how it contributes to reshaping the structures of authority within the country s Sunni Muslim community

Contesting Authoritarianism Dina Bishara,2018-08-30 Successive authoritarian regimes have maintained tight control over organized labor in Egypt since the 1950s And yet in 2009 a group of civil servants decided to exit the state controlled Egyptian Trade Union Federation ETUF thereby setting a precedent for other groups and threatening the ETUF s monopoly Dina Bishara examines this relationship between labour organizations and the state to shed light on how political change occurs within an authoritarian government and to show how ordinary Egyptians perceive the government s rule In particular Bishara highlights the agency of dissident unionists in challenging the state even when trade union leaders remain loyal She reveals that militant sectors are more vulnerable to greater scrutiny and repression and that financial benefits tied to membership in state backed unions can provide significant disincentives against the exit option Moving beyond conventional accounts of top down control this book explores when and how institutions designed for political control become contested from below

A Most Masculine State Madawi Al-Rasheed,2013-03-15 Women in Saudi Arabia are often described as either victims of patriarchal religion and society or successful survivors of discrimination imposed on them by others Madawi Al Rasheed s new book goes beyond these conventional tropes to probe the historical political and religious forces that have across the years delayed and thwarted their emancipation The book demonstrates how under the patronage of the state and its religious nationalism women have become hostage to contradictory political projects that on the one hand demand female piety and on the other hand encourage modernity Drawing on state documents media sources and interviews with women from across Saudi society

the book examines the intersection between gender religion and politics to explain these contradictions and to show that despite these restraints vibrant debates on the question of women are opening up as the struggle for recognition and equality finally gets under way

Charity in Saudi Arabia Nora Derbal,2022-07-28 In this innovative study of everyday charity practices in Jeddah Nora Derbal employs a bottom up approach to challenge dominant narratives about state society relations in Saudi Arabia Exploring charity organizations in Jeddah this book both offers a rich ethnography of associational life and counters Riyadh centric studies which focus on oil the royal family and the religious establishment It closely follows those who work on the ground to provide charity to the local poor and needy documenting their achievements struggles and daily negotiations The lens of charity offers rare insights into the religiosity of ordinary Saudis showing that Islam offers Saudi activists a language a moral frame and a worldly guide to confronting inequality With a view to the many forms of local community activism in Saudi Arabia this book examines perspectives that are too often ignored or neglected opening new theoretical debates about civil society and civic activism in the Gulf
