Richard Bailey

Britains Policy For West German Rearmament:

Britain's Policy for West German Rearmament, 1950-1955 Saki Dockrill, 1991 Britain's Policy for West German Rearmament 1950-1955 Saki Dockrill, 2010-01-14 The integration of West Germany into the North Atlantic Treaty Organisation NATO became one of the most important and contentious problems of post war security Increasing Cold War tensions during and after 1949 had led Britain to consider the need to rearm West Germany Yet fears of a resurgent Germany existed both in Britain and on the continent The timing and manner of German incorporation was crucial and became the subject of lengthy negotiations Using extensive archival material Saki Dockrill stresses how the government was forced to react to the constantly changing positions adopted by the USA France and Germany itself and addresses three main issues What made Britain accept the need for a German contribution to the defence of Western Europe Why was Britain reluctant to encourage any hasty American and French proposals And why did Britain eventually put forward proposals that successfully resolved the crisis This was the first book length analysis of the formulation of Britain s strategy for rearming West Germany and will be of interest to specialists and students of international politics with special reference to post war diplomatic history NATO and European security **British Military Planning for the Defence of Germany 1945-50** Paul Cornish, 1996-03-14 Using recently released archive material British Military Planning for the Defence of Germany 1945 50 reassesses Britain s strategy for the defence of Germany up to the outbreak of the Korean War Convinced of the capabilities of strategic air power with atomic weapons and convinced that the defence of the Middle East should be the first call on British planning Britain s military chiefs made a series of token gestures designed to boost French morale and consistently refused to make a genuine continental commitment of operational troops *A Converging Post-War European Discourse* Thomas C. Hoerber, 2014-12-24 This book explores the most important components and contributing factors to the European integration process during the 1950s It seeks to combine comparative politics and political history to examine core themes such as war experience national security military security economic security societal security and research and education in three major European countries i e France Germany and Britain It analyses the references to the ensuing European integration process in national parliamentary debates analyzing which national needs were thought European integration could cater to but also which national positions were seen as being compromised by a closer European commitment The development of a national position on European integration and in turn the evolution of European concepts are considered by using discourse theory on parliamentary debates in France Germany and Britain Parliamentary discourses are shown to be an ideal source for analyzing grand themes such as European integration because they cover all fundamental ideas they have to be public and open ended deliberations which in turn determined the position of each country towards European integration The great variety of positions reflected in the parliamentary discourse in particular those which did not prevail and which did not find their way into the commonly accepted historical storyline of European integration provide a greater

comprehensiveness and a better understanding of the history of the European integration process **Britain, Germany and the Cold War** R. Gerald Hughes, 2007-06-11 This well researched book details the ambiguity in British policy towards Europe in the Cold War as it sought to pursue détente with the Soviet Union whilst upholding its commitments to its NATO allies From the early 1950s Britain pursued a dual policy of strengthening the West whilst seeking détente with the Soviet Union British statesmen realized that only through compromise with Moscow over the German question could the elusive East West be achieved Against this the West German hard line towards the East endorsed by the United States was seen by the British as perpetuating tension between the two blocs This cast British policy onto an insoluble dilemma as it was caught between its alliance obligations to the West German state and its search for compromise with the Soviet bloc Charting Britain's attempts to reconcile this contradiction this book argues that Britain successfully adapted to the new realities and made hitherto unknown contributions towards détente in the early 1960s whilst drawing towards Western Europe and applying for membership of the EEC in 1961 Drawing on unpublished US and UK archives Britain Germany and the Cold War casts new light on the Cold War the history of détente and the evolution of European integration This book will appeal to students of Cold War history British foreign policy German politics and international history **Churchill's Cold War** Klaus

Larres, 2002-01-01 En dybtgående veldokumenteret analyse af britisk udenrigspolitik i gennem de første 10 efterkrigsår herunder bl.a. den engelsk-amerikansk-franske manøvre for at afværge Sovjetunionens bestrebelse for at genforene Tyskland

The Cold War U.S. Army Ingo Trauschweizer, 2008 Focuses on the Seventh Army in West Germany the largest and best prepared field army ever deployed by the U.S. in peacetime to show how the U.S. army redefined its identity structure and mission in order to avoid obsolescence during the Cold War era of nuclear weapons and air power The United States,

Britain and the Transatlantic Crisis J. Ellison, 2007-09-18 The greatest threat to Western unity in the 1960s came not from a communist enemy but from an ally France De Gaulle challenged the dominance of the US by bringing crises to the EEC and NATO and seeking détente with the Soviet bloc As this book shows the US and Britain cooperated successfully to ensure that his plans did not prosper **The Rise and Fall of a National Strategy** Alan S. Milward, 2013-01-11 This text analyzes

British official thinking behind the UK's standing aloof from the moves after 1945 towards European economic collaboration leading to the establishment of ECSC and the EEC in the 1950s It deals with the later change of tack 1961 covers the organization in Whitehall for the negotiations with the Communities and the major problem areas the Commonwealth British agriculture financial implications of British membership sovereignty and the future of EFTA *Britain and 1940* Malcolm

Smith, 2014-04-04 1940 was the most significant year in European history this century For Britain it was the finest hour the beginning of the People's War Britain and 1940 explores what the year meant for the people of Britain then and now Covering the pre history of 1940 in Britain Malcolm Smith explores the great fear that a second world war would perhaps mean the end of British civilization and charts the development of the myths of Dunkirk the Battle of Britain and the Blitz and
