British Literature in Transition, 1940-1960: Postwar Gill Plain, 2018-12-20 Postwar is both a period and a state of mind a sensibility comprised of hope fear and fatigue in which British society and its writers paradoxically yearned both for political transformation and a nostalgic reinstatement of past securities From the Labour landslide victory of 1945 to the emergence of the Cold War and the humiliation of Suez in 1956 this was a period of radical political transformation in Britain and beyond but these changes resisted literary assimilation Arguing that writing and history do not map straightforwardly one onto the other and that the postwar cannot easily be fitted into the explanatory paradigms of modernism or postmodernism this book offers a more nuanced recognition of what was written and read in the period From wartime radio writing to 1950s travellers cold war poetry to radical theatre magazine cultures to popular fiction this volume examines important debates that animated postwar Britain

Prince,2012-09-18 The past century s culture wars that Britain has been consumed by but that few North Americans seem aware of have resulted in revised notions of Britishness and British literature Yet literary anthologies remain anchored to an archaic Anglo English interpretation of British literature Conflicts have been played out over specific national vs British identity some residents prefer to describe themselves as being from Scotland England Wales or Northern Ireland instead of Britain in debates over immigration race ethnicity class and gender and in arguments over British literature These debates are strikingly detailed in such chapters as The Difficulty Defining Black British British Jewish Writers and Xenophobia and the Booker Prize Connections are also drawn between civil rights movements in the U S and UK This generalist cultural study is a lively read and a fascinating glimpse into Britain s changing identity as reflected in 20th and 21st century British literature
