British Political Facts 1900 1985:

British Political Facts 1900-1985 David Butler, 1986-02-01 *A Bibliography of British History, 1914-1989* Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index

A Social History of England 1851-1990 Francois Bedarida, 2013-06-17 In this the second edition of *A Social History of England* Francois B darida has added a new final chapter on the last fifteen years The book now traces the evolution of English society from the height of the British Empire to the dawn of the single European market Making full use of the Annales school of French historiography B darida takes his inquiry beyond conventional views to penetrate the attitudes behaviour and psychology of the British people *Capitalism, Culture and Decline in Britain* W.D. Rubinstein, 2002-11 First published in 2002 Routledge is an imprint of Taylor Francis an informa company *Encyclopedia of the United Nations and International Agreements: T to Z* Edmund Jan Osmańczyk, 2003 This thoroughly revised and updated edition is the most comprehensive and detailed reference ever published on United Nations The book demystifies the complex workings of the world s most important and influential international body *Enterprise, Management and Innovation in British Business, 1914-80* R.P.T. Davenport-Hines, 2005-06-28 A general introductory text on British business history declared Professor Donald Coleman in an important public lecture published in 1987 has yet to be written 1 This lacuna is extraordinary given Britain s role as the birthplace of the Industrial Revolution and its possession even in the late 1980s of the world s sixth largest Gross Domestic Product 2 It is even more odd given that business history in Britain is almost a sunrise industry every year several scholarly company histories are published although these volumes remain largely unread by business people business scholars and e

British Petroleum and Global Oil 1950-1975 James Bamberg, 2000-08-31 Dramatic narrative arresting analysis and original research are combined in this book which addresses the history of one of the world s biggest oil businesses between 1950 and 1975 Assessing BP s comparative performance the book focuses on how BP responded politically economically and culturally to the rise of new competitors the decline of Britain s imperial power and the determination of nation states to assert national sovereignty over the vital commodity oil Climaxing with the OPEC crisis which shook the world in the 1970s the book authorised by BP with uniquely unrestricted access to its records is of wide interest and relevance especially for those interested in big business globalisation and nationalism international affairs OPEC the Middle East and oil

The Electoral System in Britain Robert Blackburn, 2016-07-27 This excellent new book provides a comprehensive account of the British system of parliamentary elections It contains a description of the current structure and operation of the electoral system and pays special attention to those subjects which have given rise to political concern or controversy in recent years There is extensive analysis and commentary upon the different proposals for reform

which are currently in debate and the author puts forward his own conclusions on how the electoral system should be developed in the years ahead to modernise and improve the quality of representative democracy in Britain

Labour in Glasgow, 1896-1936 J.J. Smyth, 2000-12-21 This book provides the first single overview of Labour's electoral progress in Glasgow from its hesitant steps in the shadow of Liberalism to the moment it became the dominant party in the city in parliamentary and municipal politics The unfolding narrative is not one of uninterrupted progress but a more complex story of partial breakthroughs and setbacks Labour's electoral challenge is detailed over forty years and focuses on local elections more than parliamentary This allows a broader and fuller picture to be presented rather than the narrower emphasis on the Red Clydeside period of the Great War and immediately after The Great War was the critical turning point After 1918 Labour emerged from being a permanent minority to a position where it could genuinely seek to present itself as the major political voice in Glasgow The nature of this transformation is identified as both the radicalising effect of the war itself and the attendant changes this provoked in Labour's attitude to its actual and potential constituency Unlike other studies of the franchise system the view expressed here is that the franchise was biased against the working class and this operated against Labour However Labour was effectively handicapped by its own ambivalence towards complete democracy fuelled by fear of the poor and belief in the reactionary tendencies of the existing female local electorate While the war resolved the franchise issue for Labour in Glasgow the Party's own mobilisation over housing provided the means to appeal to the new female electorate

Éirinn & Iran go Brách Mansour Bonakdarian, 2023-12-05 This book analyzes particular patterns of nationalist self configuration and nationalist uses of memory counter memory and historical amnesia in Ireland from roughly around the time of the emergence of a broad based non sectarian Irish nationalist platform in the late eighteenth century the Society of United Irishmen until Ireland's partition and the founding of the Irish Free State in 1922 In approaching Irish nationalism through the particular historical lens of Iran this book underscores the fact that Irish nationalism during this period and even earlier always utilized a historical paradigm that grounded Anglo Irish encounters and Irish nationalism in the broader world history a process that I term worlding of Ireland In effect Irish nationalism was always politically and culturally cosmopolitan in outlook in some formulations even in the case of many nationalists who resorted to insular and narrowly defined exclusionary ethnic and or religious formulations of the Irish nation Irish nationalists as nationalists in many other parts of the world recurrently imagined their own history either in contrast to or as reflected in the histories of peoples and lands elsewhere even while claiming the historical uniqueness of the Irish experience Present in a wide range of Irish nationalist political cultural and historical utterances were assertions of past and or present affinities with other peoples and lands
