### **British Political Parties and National Identity**

Pauline Schnapper,2020-05-15 This study is about party political discourses on national identity in Britain under the New Labour governments 1997 2010 Britishness has become a major theme in the British political debate since the end of the second world war and even more so since the early 1990s either directly or through discussions of specific issues like immigration Europe or devolution to Scotland and Wales Numerous political leaders have publicly worried about the weakness of the common citizenship in the UK and the threat to the survival of Britishness which has been the only common thread in competing discourses between and within parties The book examines the four issues which have embodied the different aspects of the debate about national identity in the UK namely devolution multiculturalism European integration and globalisation It shows that the polarised discourses especially between the Conservatives and Labour of the 1990s have given way to a relative rapprochement on these issues with the notable exception of the European Union where a real cleavage in rhetoric if not in policy remains between and sometimes within British political parties

### **The Conservatives in crisis**

Mark Garnett,Philip Lynch,2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license The Conservative Party's survival as a significant political force was now open to serious question for the first time since the crisis over the Corn Laws The Labour Party has commanded a fairly consistent level of attention whether in office or in opposition But it seems that the Conservatives are fated to be regarded either as unavoidable or irrelevant This book presents an analysis that suggests that the party leader plays a less important role in

Conservative recoveries than a distinctive policy programme and an effective party organization It examines the Conservative position on a series of key issues highlighting the difficult dilemmas which confronted the party after 1997 notably on economic policy New Labour's acceptance of much of the main thrust of Thatcherite economic policy threw the Conservatives off balance The pragmatism of this new position and the In Europe not run by Europe platform masked a significant move towards Euro skepticism The book also traces how the Scottish Conservative and Unionist Parties adapted to the creation of the Scottish Parliament exploring the re organisation of the Scottish party its electoral fortunes and political prospects in the new Scottish politics It examines issues of identity and nationhood in Conservative politics in the 1997 2001 period focusing on the English Question and the politics of race The predictable results of the Conservatives failure to develop an attractive consistent narrative are then analysed Right wing populist parties with charismatic leaders enjoyed some electoral success under the proportional representation systems in 2002
