British History In Perspective S

Scott C. Dulebohn

British Politics And The Labour Question 1868 1990 British History In Perspective S:

Early Tudor Government, 1485-1558 Steven Gunn, 1995-05-10 This marvellous new book sets the developments in the government of England under the early Tudors in the context of recent work on the fifteenth century and on continental Europe

Early Modern Wales, c. 1525-1640 J. Gwynfor Jones, 1994-02-22 This work is intended to examine the main trends in Wales during the century following the Tudor settlement of Wales Emphasis is placed on the social structure the framework of government and administration and the Reformation Settlement The Stuart accession and its repercussions are also considered in relation to political economic and cultural affairs as well as the attitudes of the Welsh gentry to a new environment on the eve of the Civil War The work makes ample use of contemporary sources to examine each aspect of the political governmental and religious life of Wales

The Later Reformation in England, 1547-1603 Diarmaid MacCulloch, 2000-12-20 The English Reformation was the event which chiefly shaped English identity well into the twentieth century It made the English kingdom a self consciously Protestant state dominating the British Isles and boasting an established Church which eventually developed a peculiar religious agenda Anglicanism Although Henry VIII triggered a break with the Pope in his eccentric quest to rid himself of an inconveniently loyal wife the Reformation soon slipped from his control and in the reigns of his Tudor successors it developed a momentum which made it one of the success stories of European Protestantism In this book MacCulloch discusses the developing Reformation in England through the later Tudor reigns Edward VI Mary I and Elizabeth I He provides a narrative of events then discusses the ideas which shaped the English Reformation and surveys the ways in which the English reacted to it how far and quickly they accepted it and assesses those who remained dissenters This new edition is fully updated to take account of new material in the field that has appeared in the last decade

Political Life in Medieval England 1300-1450 W Mark Ormrod, 1995-08-07 This book explores the dimensions of political society and the major preoccupations of English politics between the later years of Edward I's reign and the outbreak of the Wars of the Roses

Political Movements in Urban England, 1832-1914 Matthew Roberts, 2008-12-16 A critical introduction to the mass political movements that came of age in urban England between the Great Reform Act of 1832 and the start of World War One Roberts provides a guide to the new approaches to topics such as Chartism parliamentary reform Gladstonian Liberalism popular Conservatism and the independent Labour movement

The Edwardian Crisis David Powell, 1996-09-18 The Edwardian age has long been recognised as a time of unusual social and political turbulence in British history This book examines the main controversies of the period in an attempt to assess the nature and seriousness of the Edwardian crisis relating the discussion to current historiographical debates on topics such as the vitality of Edwardian Liberalism the problems of the Unionist party and the importance of feminism labour unrest and nationalism as factors in Edwardian political life

Britain, Ireland and the Crusades, c.1000-1300 Kathryn Hurlock, 2012-12-07 From 1095 to the end of the thirteenth century the crusades touched the lives of many thousands of

British people even those who were not crusaders themselves In this introductory survey Kathryn Hurlock compares and contrasts the crusading experiences of England Ireland Scotland and Wales Taking a thematic approach Hurlock provides an overview of the crusading movement and explores key aspects of the crusades such as Where crusaders came from When and why the papacy chose to recruit crusaders The impact on domestic life as shown through literature religion and taxation Political uses of the crusades The role of the military orders in Britain This wide ranging and accessible text is the ideal introduction to this fascinating subject in early British history

England and Scotland, 1286-1603 Andy King, Claire Etty, 2015-10-05 On a stormy night in 1286 a man fell off his horse and broke his neck setting two kingdoms on a 300 year course of war Edward I seized the opportunity to pursue English claims to overlordship of Scotland William Wallace and Robert Bruce headed the patriotic resistance Their collision shaped the history politics and nationhood of the two realms and dragged in a third with the formation of the Franco Scottish Auld Alliance It also created a unique society on both sides of the Anglo Scottish border What prevented peace from breaking out And how at the dawn of the seventeenth century could a Scottish king succeed peacefully and unopposed to the Auld Enemy's throne Andy King and Claire Etty trace the fractious relationship between England and Scotland from the death of Alexander III to the accession of James VI as James I of England Spanning medieval and early modern history this book is the ideal starting point for students studying Anglo Scottish relations up to the Union

The Mid-Tudor Crisis, 1545-1565 Geoffrey Meen, 1992-09-23 Historians like politicians thrive in crises Was there really a crisis in England between 1545 and 1565 or is this just a way of describing a period in history when a lot of interesting things were happening In reality the twenty years from 1545 to 1565 contained no more elements of crisis than other comparable periods There were crises a brief but serious collapse of the overseas cloth trade in 1551-52 and a confused royal succession in 1553 Inflation began to be a problem in about 1545 and remained so for the remainder of the century The Church had already undergone a major revolution in the 1530s and the mid century period could be described as the search for a stable settlement a search that had succeeded by 1565 Indeed the machinery of central and local government worked throughout this period with only minor fluctuations in its efficiency and effectiveness Although therefore there were crises within in the mid Tudor period there was no fundamental threat to the state or society Mary and Northumberland's achievements in particular have been much underrated as governors in order originally to magnify those of Elizabeth propaganda DAVID LOADES rights the record and argues for the surprising stability of government during this period

The Wars of the Roses Anthony James Pollard, 2013-04-26 The civil wars of the first half of the fifteenth century still stand in the popular imagination as the period of greatest anarchy in English history While historians have long taken a more measured view controversy still surrounds their interpretation In this revised edition of his revaluation of the Wars of the Roses A J Pollard has incorporated into the text the product of new research and consideration of the debates which have emerged since the book was first published in 1988 These include the new stress on constitutional history intensified dispute

about the origins of the wars and recent reinterpretations of the careers of some of the principal personalities In a topic which has become more contested in the last decade of the twentieth century this introduction offers a succinct narrative a review of the historiography and an overview of the problems of interpretation of the character causes impact and consequences of the wars which periodically disrupted England between 1459 and 1487

Reviewing **British Politics And The Labour Question 1868 1990 British History In Perspective S**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
