The Oxford Handbook of the British Musical provides a comprehensive academic survey of British musical theatre offering both a historical account of the musical's development from 1728 and a range of in-depth critical analyses of the unique forms and features of British musicals which explore the aesthetic values and sociocultural meanings of a tradition that initially gave rise to the American musical and later challenged its modern pre-eminence. After a consideration of how John Gay's *The Beggar's Opera* 1728 created a prototype for eighteenth-century ballad opera, the book focuses on the use of song in early nineteenth-century theatre followed by a sociocultural analysis of the comic operas of Gilbert and Sullivan. It then examines Edwardian and interwar musical comedies and revues as well as the impact of Rodgers and Hammerstein on the West End before analysing the new forms of the postwar British musical from *The Boy Friend* 1953 to *Oliver* 1960. One section of the book examines the contributions of key twentieth-century figures including Noel Coward, Ivor Novello, Tim Rice, Andrew Lloyd Webber, director Joan Littlewood and producer Cameron Macintosh while a number of essays discuss both mainstream and alternative musicals of the 1960s and 1970s and the influence of the pop industry on the creation of concept recordings such as *Jesus Christ Superstar* 1970 and *Les Misérables* 1980. There is a consideration of jukebox musicals such as *Mamma Mia* 1999 while essays on overtly political shows such as *Billy Elliot* 2005 are complemented by those on experimental musicals like *Jerry Springer the Opera* 2003 and *London Road* 2011 and on the burgeoning of Black and Asian British musicals in both the West End and subsidized venues. *The Oxford Handbook of the British Musical* demonstrates not only the unique qualities of British musical theatre but also the vitality and variety of British musicals today. **The British Librarian; Or, Handbook for Students in Divinity, Etc** William Thomas LOWNDES, 1844 **British Librarian, Or Book-collectors Guide to the Formation of a Library in All Branches of Literature (etc.)** William Thomas Lowndes, 1842
