British Historians The West Indies:

British Historians and the West Indies Eric Eustace Williams, 1972 British Historians and the West Indies Eric Williams, 1993-11-01 British Historians and the West Indies Eric Eustace Williams, 1964 *Eric Williams and the Making of the Modern Caribbean* Colin A. Palmer, 2009-06-01 Born in Trinidad Eric Williams 1911-81 founded the Republic of Trinidad and Tobago's first modern political party in 1956 led the country to independence from the British culminating in 1962 and became the nation's first prime minister Before entering politics he was a professor at Howard University and wrote several books including the classic *Capitalism and Slavery* In the first scholarly biography of Williams Colin Palmer provides insights into Williams's personality that illuminate his life as a scholar and politician and his tremendous influence on the historiography and politics of the Caribbean Palmer focuses primarily on the fourteen year period of struggles for independence in the Anglophone Caribbean From 1956 when Williams became the chief minister of Trinidad and Tobago to 1970 when the Black Power inspired February Revolution brought his administration face to face with a younger generation intellectually indebted to his revolutionary thought Williams was at the center of most of the conflicts and challenges that defined the region He was most aggressive in advocating the creation of a West Indies federation to help the region assert itself in international political and economic arenas Looking at the ideas of Williams as well as those of his Caribbean and African peers Palmer demonstrates how the development of the modern Caribbean was inextricably intertwined with the evolution of a regional anticolonial consciousness **The Oxford History of the British Empire: Historiography** Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries *Colin Palmer's Trilogy on Imperialism in the Caribbean, Omnibus E-Book* Colin A. Palmer, 2014-03-01 This Omnibus E-Book brings together all three of Colin A. Palmer's books on the making of the modern Caribbean Included are *Freedom's Children* The 1938 Labor Rebellion and the Birth of Modern Jamaica This is the first comprehensive history of Jamaica's watershed 1938 labor rebellion and its aftermath The rebellion produced two rival leaders who dominated the political life of the colony through the achievement of independence in 1962 Alexander Bustamante a moneylender founded the Bustamante Industrial Trade Union and its progeny the Jamaica Labour Party Norman Manley an eminent barrister led the struggle for self government and with others established the People's National Party Palmer sheds new light on the nature of Bustamante's collaboration with the imperial regime the rise of the trade union movement the struggle for constitutional change and the emergence of party politics in a modernizing Jamaica Cheddi Jagan and the Politics of Power British Guiana's Struggle for Independence Palmer here tells the story of British Guiana's struggle for independence The work details the rise and fall of Cheddi Jagan from his initial electoral victory in the spring of 1953 to the aftermath of the British orchestrated coup d'état that led to the suspension of the constitution and the removal of Jagan's independence minded administration Bringing the larger story of Caribbean colonialism into view this work shows how

violence police corruption political chicanery racial politics and poor leadership delayed Guyana's independence until 1966 scarring the body politic in the process Eric Williams and the Making of the Modern Caribbean In this first scholarly assessment of Williams 1911-1981 founder of the Republic of Trinidad and Tobago's first modern political party and the nation's first prime minister Palmer explores his life as a scholar and politician and his tremendous influence on the historiography and politics of the Caribbean Palmer focuses especially on a 14 year period of independence struggles in the Anglophone Caribbean when Williams helped resolve regional disputes and promoted the creation of a pan Caribbean federation

The Growth of the Modern West Indies Gordon K. Lewis, 2004 Provides an in depth analysis of the forces that contributed to the shaping of the West Indian society covering the the crucial inter war years from the 1920s to the period of the 1960s

The Oxford History of the British Empire: Volume V: Historiography Robin Winks, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

The Caribbean Denis Benn, 2004 The study is concerned mainly with the growth and development of political ideas in the Caribbean since the latter half of the eighteenth century It attempts an analysis of the more significant intellectual formulations which have emerged in the region during the period it includes reference to some of the major economic theories which have shaped the Caribbean reality over the years Introduction p xi *British Historians and the West Indies. Pref. by Alan Bullock. (1. Publ.) - New York: Africana Publ. Corp. (1966). 238 S. 8°* Eric Eustace Williams, 1966
